Entertainment and Automation System Design and Installation

About Interior Technologies

Interior Technologies specializes in an array of custom designed home technology systems. An industry leader in Southern California since 2000, our experience and expertise enables us to provide you with the right solutions to meet your home, lifestyle, and budget needs.

Systems and Solutions

Interior Technologies is the one-source for all your home technology needs:

- Home Theater
- Whole House Audio and Video
- Automated Lighting Control and Window Treatments
- Integrated Control of Climate, Pools, Security
- Telephone and Computer Networking
- Surveillance Cameras and Access Control

Licensing and Credentials

Our design and installation teams are professionally trained in all areas of home technology. Interior Technologies is CEDIA certified and is a licensed contractor in the state of California (insured and bonded). With technology constantly changing, rest assured that we will always be experts in the latest industry and product developments.

Our Philosophy

Interior Technologies designs residential systems tailored to the specific needs of each of our clients. Relying on the finest audio, video, automation and communication equipment, Interior Technologies believes in simplicity, elegance, and ease of use.

A Team Effort

Today's homes are becoming increasingly technologically sophisticated. Interior Technologies considers itself among the few vital players you will enlist to create the home of your dreams. We will work seamlessly with you and your building and design team to determine and implement your whole house technology needs.

Satisfaction and Trust

No company takes client service more seriously than we do. Everything we do is to earn your trust. We work diligently to ensure you are satisfied with our results at all times. Interior Technologies makes every effort to give you the confidence to refer us to everyone you know.

How We Deliver Value

Design and Consultation – aesthetics and ease of use are at the forefront of our Design and Consultation services. Prior to designing your project, our highly trained CEDIA Certified Designers conduct a thorough lifestyle analysis. We work with you, your architect, contractor and interior designer to achieve your vision from start to finish. We guarantee that our integrated solutions will function easily, elegantly, and seamlessly.

Project Management and Installation – you will always know how your project is progressing with Interior Technologies. A skilled Project Manager will provide you with updates, weekly status reports, and knowledgeable attention. Rest assured our installation process is conducted with an unsurpassed level of efficiency and supervision.

Personalized Service – your enduring satisfaction and confidence is our primary goal. We tailor our service and attention to your specific requirements and serve as your home integration specialist. Our Preferred Client Program is another way to enjoy your investment through the years. This program offers detailed system inspections and special discounts on products and services.

Why Interior Technologies

Complete Systems – we install professional systems to provide you with a fully functional and integrated home experience, not independent parts and pieces.

Reliable Systems – that work right, every time.

Every Day Easy – so easy, you'll use them every day. Simply press a button, no manuals required.

Extreme Client Care – we arrive and get it right the first time as promised. We treat your home, safety and privacy as our own.

Future Thinking/Present Acting – we stay up to date on the latest and greatest, while always putting new technology through its paces to ensure you receive only tried, true and tested systems.

World Class Performance – guaranteed pride of ownership and bragging rights. Sight, sound, and features certain to impress you -and everyone else- from day one.

*“Without a doubt,
Interior Technologies
is the gold standard of
how to intelligently
communicate technical
knowledge and guidance
in a way that end users
can actually use!”*

– Homeowner, Beverly Hills, California
